NUMBER 163

BEHIND The scenes in BUSINESS BY JOHN CRADDOCK

SIMMERING—Price control legislation, the new tax bill, and eastern gas rationing all have sort of settled down for summer simmering on the back of the business stove . . . but retail trade is in front, and sizzling! Instead of usual hot-weather lull, this summer is proving by far the best that retailers have known in more than a decade. Increased purchasing power traceable to defense "boom" is the dominant factor, of course, but lately "scare buying" has been increasing as consumers tend to purchase beyond their current needs because of threats of shortages and price rises. This is especially true in the case of durable goods and staple clothing. One men's clothing chain is showing a gain of 51.4 per cent over last year, and big mail order companies which do a substantial business in durable consumer items, have had gains ranging from 30 to 42 per cent. A somewhat exaggerated example of how shortage and price-rise apprehension affects consumers was seen recently in the frantic rush at the silk stocking counters.

KNOWING HOW—The defense production program has produced what seem to be some "strange bedfellows" of industry—in assigning certain companies to handle defense jobs not closely akin to their regular operations. Rat trap makers are turning out army cots; pipe organ makers are making saddle frames; adding machine manufacturers are making automatic pistols; makers of cream separators are turning out gun tripod mounts—and so it goes. On closer inspection of many of these cases it is found that there is, after all, a basic kinship between the materials, or tools, or factory set-up for these companies' regular production, and the defense-goods production. In other cases there is almost no physical relationship whatever, but established industrial organizations get the War Department call to operate new defense enterprises simply because of the need for proven skill in management of big operations. Most recent example for the latter is organization of the Lone Star Defense corporation to construct and operate a \$78,940,000 government ordnance plant near Texarkana, Tex. It was organized as a subsidiary of the B. F. Goodrich company, pioneer rubber concern, and the latter's management personnel was given responsibility for construction and operation of the plant, where about 8,000 persons will be employed in loading shells and bombs.

BITS O' BUSINESS—Don't expect to see any definite percentage figures on how much production of autos—and refrigerators, washing machines, etc.—is to be curtailed; the raw materials situation is such that these industries, and the defense officials, will just have to go along, doing the best they can, month to month—predictions are out . . . Nation's department store sales for week ending August 2nd showed another 27 per cent gain over same week last year . . . Farm commodities exempt from price-control legislation draft—their prices would have to hit 110 per cent of "parity" before being subject to ceilings; at maximums, that would mean about \$1.29 a bushel for wheat; 94 cents a bushel for corn; 26 cents a pound for flue-cured tobacco; \$1.19 a bushel for rice, and 18 cents a pound for cotton . . . Look for open-mesh hose, in colors, and made of cotton, as relief for silk hosiery shortage; also hose with cotton or rayon tops and feet; Du Pont expects to be producing enough nylon yarn for 40 per cent of nation's hosiery by end of the year.

THE FARM 'BUSINESS'—The rising generation of American farmers bids fair to be much better "business men" than its Dads and Granddads. Besides learning production-line growing technique, they're studying closely the economics of movement of farm products to their ultimate destination—the nation's dinner tables—and winning scholarships, en route. Last week three farm youngsters won college scholarships awarded by the A & B at the National Junior Vegetable Growers Association meet in Columbus, O., for their first-hand studies of "marketing problems as a key factor in determining farm (Continued on Page Four)

MILITIA AIR UNIT MUSTER AUGUST 24

25 From Placerville At Auburn Thursday Night For Initial Drill

The Mother Lode Squadron of the State Guard Air Corps held its first drill Thursday night at Auburn and announcement was made of plans to muster the unit into service as a part of the state guard on Sunday, August 24.

The muster will take place at Auburn. Spokesmen for twenty-five El Dorado County men who attended the drill Thursday night said that the preparations for holding the muster in Auburn were so far advanced that it was impossible to amend the plans to provide for holding the muster at the El Dorado County Fair, as some El Dorado County residents had suggested.

According to El Dorado County aviation enthusiasts, the minimum enrollment of the squadron is assured and El Dorado County is assured of having a branch, or flight, of the squadron.

At the initial drill on Thursday evening, they said, it appeared that El Dorado County may have an opportunity to play a prominent part in the activities of the squadron, since the support of the activity in this county appears to be stronger than has been evidenced elsewhere.

If there are men who are not enrolled in the squadron and who are interested in enrolling, they may contact Roger Douvres, at the American Laundry, or Attorney C. W. Pearson.

Mr. Pearson, an Army Air Corps veteran of 1918, is taking an active part in getting the squadron started.

Boycott Repeal Is Opposed

State C. of C. Head Notes "Americanism" Of Ban On Hot Cargo By Legislature

SAN FRANCISCO—Emphasizing the "Justice and Americanism" of the act outlawing hot cargo and secondary boycott, Alfred J. Lundberg, president of the California State Chamber of Commerce, yesterday issued a statement to members of the organization urging them to join in a campaign of education which will have for its purpose the retention of this law on the statute books.

Lundberg pointed out that efforts are now being made by certain groups of citizens to qualify referendum petitions and thus remove this measure from the statute books. The act was passed by both houses of the legislature at its last session, and vetoed by the governor. Subsequently, both the senate and assembly re-passed the act by a two-thirds majority.

In seeking to qualify the referendum petitions and to prevent the measure from becoming law, these groups are acting wholly within their rights, Lundberg pointed out. "However," he said, "the State Chamber is vitally interested in seeing that all of the people of California are thoroughly aroused as to the dangers of repealing this law. We urge you to use every effort in the education of the citizens of your own community along this line, and see that you make it your own personal business to educate as many of your own acquaintances as possible concerning the justice and Americanism of the hot cargo and secondary boycott law, and the benefits which will inure to all of the people of the state in case it remains on the statute books. The State Chamber is engaged in a campaign of education to arouse the entire citizenry of California to the issue."

Mr. and Mrs. Philip Boelzner, of Placerville, are the parents of a son, born Thursday at a hospital in Sacramento.

George E. Faugsted has been named one of the delegates from the Sixth District to the national American Legion convention next month at Milwaukee. Faugsted said Friday he doubts that he will be able to attend.

Downed in Dog Fight

Whitney Straight, former New York millionaire society racing driver, is reported to have landed his crippled Spitfire plane in France after being downed by a German plane over the English Channel. The RAF pilot was returning to Britain after a patrol fight.

LIVING COSTS UP 5 PCT.

Principal Items In Food Budget Jump 11 Pct. With Some Gains Of 30 Per Cent

SAN FRANCISCO—Living costs in the large cities of California increased sharply during the first half of 1941 to a point approximately 5 per cent over the average levels in 1940 and 5½ per cent over the average costs prevailing over the period 1935-39. Retail costs of principal items in the food budget increased about 11 per cent during the twelve month period ending June 15, 1941, with certain items of meat and dairy products showing an increase of as much as 20 to 30 per cent.

The August bulletin issued by the California state chamber of commerce to members throughout the state, deals with the cost of living, wage and price changes, and also with the subject of defense labor training.

"Most of the increase in retail prices," the bulletin says, "has occurred in the past three months and will continue to be reflected in cost of living budgets at an accelerated rate over the remainder of the year as stocks of goods on the distributors' shelves become exhausted and are replaced at advancing wholesale prices."

While the cost of living index increased only about 5 per cent during the year, the U. S. Department of Labor index of wholesale prices showed an increase of 12 per cent for the same period and late in July was 13.8 per cent above the average for the same period in 1940, the bulletin says. Most of the increase has occurred since March of this year. These and anticipated future increases, it is pointed out, will later be reflected in retail prices, although in terms of per cent the increases will not be so great since the cost of living index includes such services as medical and dental care, transportation, utilities and other items, the costs of which do not fluctuate as much as commodity prices.

According to the study made by the State Chamber, food prices advanced 10.9 per cent in Los Angeles between June 15, 1940, and June 15, 1941, and 10.8 per cent in the San Francisco-Oakland area. Clothing prices are 2.22 per cent higher in Los Angeles and 1.9 per cent higher in the Bay District. House furnishings advanced 4.9 per cent in Los Angeles, and 4.2 per cent in the San Francisco-Oakland area.

FLYCASTING PONTOON TO BE SET UP BY ENGINEERS

The Engineer Platoon of Company 18, of the State Guard, has offered to build the pontoon to be used in the flycasting tournament in connection with the County Fair. It was announced Friday by Dr. Lester B. Rantz, chairman for the tournament.

The pontoon will support the small platform from which the flycasters will do their casting.

George E. Faugsted, chairman for the fair, promised T. S. Marlor, commanding the state guard unit, that Floyd Barrett will supply barrels to support the pontoon.

Mr. and Mrs. Merle Byers have as their guests for the week Mrs. Byers' sister and husband, Mr. and Mrs. Paul Montgomery, of Melba, Idaho.

16 ENTRIES IN WHEELBARROW RACES

County Fair To Receive Radio Broadcast Sunday From S. F. Station

With the time for filing entries in the El Dorado County Fair, August 22, 23 and 24, expiring on Tuesday evening of next week, the fair offices in the basement of the courthouse was a hive of activity Friday morning.

The county Chamber of Commerce reported sixteen entries for the J. M. Studebaker Wheelbarrow Races to date and said they come from all parts of the county and from Sacramento.

Prospective racers who lack sponsors, and prospective sponsors who lack racers may arrange to get together by contacting the chamber of commerce office, on Sacramento Street.

The fair management announced that the San Francisco Junior Chamber of Commerce is sponsoring a radio broadcast Sunday, August 17, at 4:45 o'clock over station KFRS, San Francisco, which will be devoted to El Dorado County and the county fair.

It was also announced that Katherine Kitchen will speak on Friday afternoon, August 23, at the women's tent at the fair grounds, on "Early California Food and Customs." It is felt that this talk will be of particular interest to county homemakers.

According to C. A. Barker, entertainment chairman for the fair, there are opportunities in the American Legion amateur hour, planned for Friday evening, August 22, during the El Dorado County Horse Show.

Although a number of entries are already on file in both the individual and the group division of the contest, Barker said that late entries still have an excellent chance to qualify for cash awards.

Entries of fair exhibits, and entries in all special events scheduled by the fair, may be filled at the fair offices in the basement of the courthouse.

Porini Wins Cook Rating

Placerville Man, Sergeant, Completes 2-Month Course In Bakers And Cooks School

CAMP SAN LUIS OBISPO—A soldier who is going to be mighty handy around the home when his training program is over is Sgt. Elmer F. Porini, Co. D, 115th Engineer Regiment, of Placerville, California.

The soldier has been given the coveted certificate from the School for Bakers and Cooks at Camp San Luis Obispo, after an intensive two months course in cooking.

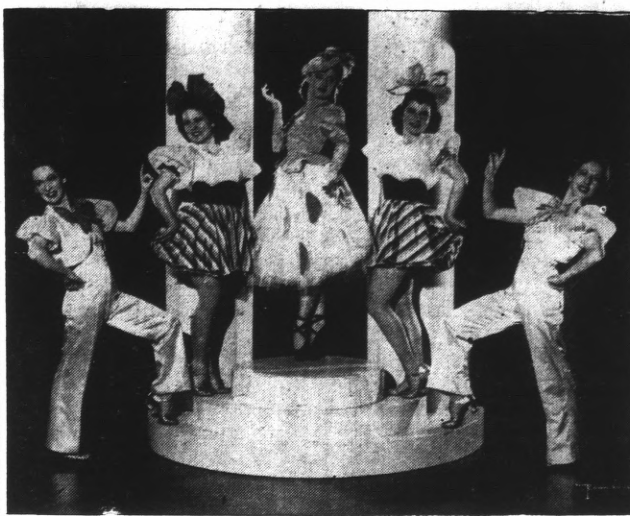

The soldier is now qualified to "pull a shift" in a company mess here, cooking all three meals including meats, pastries, and other dishes. He is also qualified to supervise kitchen sanitation and personal hygiene of his crew, translate bare recipes into proper quantities for numbers to be fed, and spread it on tables all hot and tasty.

The Bakers and Cooks School here was conducted by Lieut. Alvin Crocker, under supervision of Maj. E. K. Pettibone, commandant of the Bakers and Cooks School of the Ninth Corps Area.

The course is one of wide instruction, ranging from kitchen sanitation and elements of cooking to meat cutting and uses of different cuts; purchase and storage of food; use of left overs; and practical cooking with emphasis on quantities, temperatures, and time required in the preparation of various recipes.

The graduating soldiers were given their diplomas in a formal ceremony. Capt. Donald J. Crawford, as assistant plans and training officer of the 115th Medical Regiment of the 4th Division addressed the men on field sanitation, pointing out methods of preventing food contamination during maneuvers in the field.

Elmer and Violet West have brought suit to quiet title to lots lying in Township 10 and 11 north, Range 10 east, lying north and northeast of Placerville.

SPECIALTY ENTERTAINMENT for the County Fair, August 22, 23 and 24, will be topped by the La Bards, five specimens of feminine pulchritude who are well known for their dance appearances at San Francisco and at Hollywood.

AUTO INDUSTRY SWINGS INTO DEFENSE AT FAST PACE

Army's Rolling Stock Will Include 250,000 Vehicles By Autumn; Packard And Ford Turning Out Airplane Engines

By ANTHONY G. DE LORENZO
United Press Staff Correspondent

DETROIT, (AP)—The motor truck, use of which was spurred by the first World War, is playing a vital role in the nation's defense program.

The automobile industry is putting the army on wheels at the swiftest pace in history. In 1937 the army had 13,000 motor vehicles; today it has about 200,000. By autumn the army should have about 250,000 vehicles.

The vehicles range from tiny scout cars to heavy-duty trucks for pulling mammoth guns, semi-trailers and cargo. During 1940 a total of more than \$220,000,000 in orders was placed with 17 truck companies.

During the five-year period beginning in 1914, only 546,437 trucks were produced for all purposes in the United States. In the past five years 3,824,857 trucks have rolled off assembly lines. It is estimated that 4,650,000 trucks are in use today throughout the country.

Today's trucks, according to W. E. Fish of General Motors' Chevrolet division, produce more power, operate more economically and in some instances, cost as little as a third the price of the average truck in 1914.

The Packard Motor Car Co., has swung into production on Merlin Rolls Royce airplane engines, ten months after workmen laid foundations at its new \$30,000,000 aircraft engine plant. The engines will be used to power the British Royal Air Force's Spitfires and Hurricane fighters and planes of the army air corps. First deliveries have been made. Packard's engine plant stands on the site where the firm built the Liberty engines during the world war.

Camp San Luis Obispo Troops Start North On Saturday

SAN FRANCISCO, (AP)—Thirty thousand California troops today were poised to start moving north at 5 a. m. tomorrow to fight an imaginary invasion of the Washington coast in maneuvers involving 100,000 men, the largest troop concentration in western history.

Since last Sunday, problem directors have built the setting for the maneuvers with day-to-day communications outlining the assumed activities of a "large coalition enemy force" which had seized Hawaii.

After unsuccessful raids on the coast of California, the enemy fleet was assumed to have obtained a foothold on the Washington coast with dive bombers, paratroops and naval landing forces.

Lieut. Gen John L. DeWitt ordered tactical mobilization of all troops under his command from Canada to Mexico. The latest fourth army communication placed the enemy entrenched on a line between Olympia and Centralia, Wash., about 20 miles inland from Aberdeen.

Fifty thousand troops already are concentrated at Fort Lewis, Wash., and they will be joined by units from other western states. Maj. Gen. Kenyon A. Joyce will command the entire ninth corps area force and Maj. Gen. Joseph L. Stillwell is in charge of moving the reinforcements to Fort Lewis.

Most of the seventh division from Fort Ord and the 40th division from Camp San Luis Obispo will go north starting tomorrow by train and truck, taking about four days for the trip.

FORMER RESIDENT, MOTHER OF FIVE, SUCCUMBS AT SACRAMENTO

Funeral services will be held Sunday at 2 o'clock at the Dillinger chapel for Mrs. Louella Pierce, 34, a former resident of this county, who died Thursday at a hospital in Sacramento of tuberculosis.

Mrs. Pierce, a native of Siskiyou County, was the wife of Winnie Lamber Pierce, formerly employed

in mining in this county and more recently engaged in farming near Elk Grove. She was a sister of Mrs. Ruby Bowles, of Camino.

Surviving are five children, Bonnie, Pearl, Rosalie, Alvin and Glen Pierce in addition to the husband, the sister, and the mother of the deceased.

The service will be conducted by the Rev. H. F. Bottorff. Interment will be at Middletown Cemetery beside the grave of a deceased child of the family.

300 BOMBERS SWEEP NAZI CENTERS

Reds Admit Retirement In Ukraine; Deny Loss Of Odessa, Nilsaev

BY JOE ALEX MORRIS
U. P. Foreign News Editor

A pattern for more collaboration and war effort against the axis on the Atlantic, Russian and Far Eastern fronts appeared to be emerging today as a result of the meeting at sea of President Roosevelt and Prime Minister Winston Churchill.

Both sides in the world-wide struggle assessed the results of the meeting and its eight-point peace aims from opposite propaganda viewpoints, with greatest attention to the question of whether it carried the United States closer to a "shooting war."

There was a swift acceleration of operations on the fighting and diplomatic fronts, bolstering belief in London and Washington that more drastic and important American action was to be expected to aid in destruction of "nazi tyranny."

1—A fleet of more than 300 British bombers carried out raids on German targets at Hanover, Brunswick, Magdeburg and other points comparable to heavy German attacks on British areas in the past. A dozen British planes were lost. Pilots reported heavy damage inflicted.

2—The Red army admitted the loss of two important cities—Kirovograd and Pervomaisk—in the Ukraine but continued to defend Odessa and Nikolaev as the main forces under Marshal Semyon Budenny fell back to establish a new line on the Nieper river in defense of the great Russian industrial area in the Donetz basin. London reported the Russians were destroying everything as they retired from the Dnieper river "bend."

3—A Churchill-Roosevelt message to Josef V. Stalin pledging the full (Continued on Page Three)

Eagles To Have Day At Fair

Special Events Will Award Prizes Of \$500 To Members Aug. 31st

SACRAMENTO—Northern and southern members of the Fraternal Order of Eagles will fight it out in a tug-of-war contest to be held on Eagles Day, August 31, a red letter event in the program of the 87th annual California State Fair, August 29th through September 7th.

Prizes totalling \$500 are offered members of the order in the tug-of-war, a horse shoe pitching contest and drum corps and drill team competitions.

Eagles Day will open at 11 a. m. with the horse shoe contest. A trophy and \$20 will be awarded as first prize, a trophy and \$10 for second prize with third and fourth prizes of \$5 each and four additional prizes of \$2.50.

At 1 o'clock uniformed bodies, including the women's auxiliaries, will parade through the grounds, followed by the tug-of-war between teams of 20 members from Northern California areas and 20 members from Southern California areas. A trophy and \$20 will be awarded the winning team.

Trophies and prizes of \$100, \$50 and \$25 will be awarded winners of the drum corps competition. Trophies and prizes of \$50 and \$25 will be given winners of the dress uniform drill team contest and trophies and prizes of \$40, \$20 and \$15 for drill teams without uniforms. Women's auxiliaries will compete for \$30, \$20, trophies and a state fair cup in their division.

2 Hurt As Locomotive Dives Into Petaluma Creek

PETALUMA, (AP)—The locomotive of a northbound Northwestern Pacific freight-passenger train was derailed at a bridge just north of Petaluma last night and fell on its side. The locomotive and one passenger car were damaged.

Fireman J. Porteau of Fairfax suffered a broken arm and brakeman J. E. Martens, San Rafael, was cut and bruised. The thirteen freight cars and three passenger cars on the rear end remained on the tracks.

Robin Godine rich society girl, falls in love with Cary Craig, who is paying his way through medical school by working for an escort bureau. She hires him to go about with her. He secretly loves her but, because of her wealth, hides his feelings. Finally, however, overcoming his scruples, he asks her to marry him, with the understanding that they will wait until he is established as a doctor. Her father, bitterly opposed to her marrying such a poverty-stricken young man, tries without success to break the engagement. Another who wants to break it is Lyriss Moline, singer in a beer parlor owned by Cary's foster father, Jed Prosser. She secretly loves Cary and, in a scheme to prevent Robin from marrying him, enlists the aid of Brad Molter, ex-convict. On the pretext that Cary has been hurt in an accident, she lures Robin to an apartment where Brad is waiting. They chloroform her.

CHAPTER XXIX

THERE was a low, insistent moaning—"Don't, don't." Robin, coming back from darkness, realized dizzily that it was her own voice. She turned her head and tried to see through the mist of gray that seemed to surround her. Vaguely, she heard a man and a girl talking—the man's voice protesting; the girl's harsh and determined but she could not make out the words. By and by, she saw the girl staring down at her. Lyriss Moline! Robin remembered now, and tried to sit up, but couldn't. "Cary," she moaned. "He's all right," Lyriss said brightly. "That was just an excuse to get you here." Robin rubbed her hand over her forehead. She was still befuddled. "Why?" she managed to say. "It won't be long now until the pictures are finished," Lyriss said, and laughed. "Pictures? What pictures?" "You'll see them," Lyriss snapped. "Meanwhile, keep quiet. It's good for what ails you."

ROBIN lay very still. After a while, her head began to clear, though it still ached and throbbed. She heard a knock on the door. Lyriss went to answer it, and returned with a small package and a large envelope. "You may go now, Brad," Robin heard her say. She saw the man called Brad pick up his hat and leave. Then, Lyriss sat down next to her. She opened the large envelope, and drew some pictures out of it. "Take a look," she sneered.

GAMES TONIGHT—Forest Service vs Mac's Jumbos; Lumberjacks vs visitors; Smith Flat vs Displico.

SIX "MAYORS" OF FILM LAND TOSS "FIRST BALL" IN CHARITY GAME

HOLLYWOOD, (UP)—Six movie "mayors" fought for the honor of tossing the first ball in the seventh annual comedians vs leading men baseball game, headed six baseballs in the general direction of home-

plate last night and started a contest the like of which has never been seen on any diamond anywhere.

A million dollars worth of talent performed antics before a crowd of 30,000 and for four mad innings sent wave after wave of laughter rolling against center field bill-

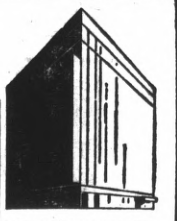

boards.
The score? Nobody knows. The game ended in the fourth inning when someone pulled the main light and the game was called on account of darkness.

Proceeds from the charity game went to the Mount Sinai hospital and clinic.

Neighborhood NEWS

LOTUS NEWS NOTES

Among those from far and near who were callers at the Rasmussen home Sunday were Mr. and Mrs. Edward Christian, of Placerville; Mrs. Doll Avansino, Mr. and Mrs. John King and daughter, Helen, all of Los Angeles and Mr. and Mrs. Edgar Kimble of Camino. All the above went to the Newtown school several terms when Charlie's wife was their teacher many years ago. Ed Christian did not come down to Lotus — his wife said he remained at Coloma to clean up things with others after an all-day picnic at the Marshall Monument by all parties.

The state highway men have sure made a nice piece of work on the Uniontown bar on highway 49 and much credit is due them. This small stretch of road should be raised some four or five feet higher in case of high water like in the years of 1880 and '87 or our lower part of the town will be flooded all over.

Mrs. Ione Williamson of Springvale was in our town; also Everett DeLory and wife and Everett's mother, Mrs. Angie DeLory, of Coloma, all attending to business matters the past week.

Two automobiles, one driven by George Clough of Coloma, the other by a partly from Sacramento came together at the junction of the new road to Marshall Monument Sunday between 3 and 4 p. m., both cars getting their front axles sprung. No one was badly injured. Jim Lowry who was with Clough got a small cut on his nose. Each one agreed to repair their own damage. As the law requires an automobile accident to be reported to an officer of the law within 24 hours the two young men made their report to our justice of the peace Sunday evening.

Mr. and Mrs. William Volles of

Oakland were in our town last Saturday from Placerville. Mrs. Volles was gathering some history of the oldest houses in Lotus and met with much success. Mr. and Mrs. Volles have a large pear orchard up near Camino which is cared for by Jack Wiley and report a good crop. They are spending a part of their vacation in El Dorado County as they do most every year. Mrs. Volles is a contributor to the Mountain Democrat.

Mrs. Mary Nedderman and her sister, Mrs. Susie Chapman came up from their Oakland homes recently and spent a few days with George Fountain, returning to Oakland Wednesday eve.

Charlie Rasmussen is great in getting coins and since January 6 last, up to July 6 had gathered up 300 of the 1940 and 1941 new nickels, \$1.500, which he put in week. Our judge has quite a collection in years past of old coins which can be seen at the Hangtown Antique Shop in Placerville for sale.

Mrs. Florence Hines who has been employed at the Piedmont Cafe in Placerville for the past three months has resigned her position and has gone to work at the Tumble Inn. She entered upon her duties on Wednesday last. We wish the lady much success in her new place of business.

Otto Fenske has put up a nice new sign the past week on the Lotus road, directing the people up to his residence. Quite an improvement to the traveling public.

Ralph LeVitt and wife and daughter Edith of the Hangtown Antique Shop and Doris Hennings of the Five Mile Terrace came out from Placerville last Monday and spent the evening at the Rasmussen home. Doris and Edith had been vacationing at Camp 15 near Pino.

After a week or more on a visit to Richmond and Berkeley with her relatives and friends Mrs. Amanda Fenske returned back to her home here on last Tuesday evening and on Wednesday morning went to work at the large fruit packing plant in Placerville. Mrs. Fenske has, like many others, worked at the fruit house for some years past. Charlie Hines, his son, and his father, Frank Hines, went down to Folsom and put in a few days fishing the past week. We learn they caught the limit.

Mrs. J. W. Oviedo of Coloma and Mrs. Harry Reaside did sure make a flying trip to the bay city on Monday last returning back Tuesday evening. The ladies will soon be going down again and then stay and visit much longer.

Mrs. Lottie Galleher, Mrs. Jessie White and one of their lady friends spent Sunday evening in Placerville.

Mr. and Mrs. Henry Bacchi stopped in Lotus for a few minutes Saturday on their way to Sacramento. They are spending a few days at Wentworth Springs.

Mr. and Mrs. Wm McLeod of Sacramento were up Saturday evening to visit with Mrs. Lottie Galleher.

Mrs. R. Herrold, Mrs. P. Westphal, Mrs. Geo. Meyer and Miss A. Shoneaker, all of San Francisco, were visiting the Resides on Friday. They were interested in seeing the changes which had taken place around here since their last visit a number of years ago. After lunch the party continued on their journey to Lake Tahoe.

Mrs. George Oviedo and Mrs. Jack Rector were in Lotus Saturday morning doing some marketing.

Several new men have, during the past week, been seeking employment with the General Dredge Co.

We hope the epidemic of coughs and colds which has afflicted so many of our Lotus folks, will soon be over.

Supervisor Niegel was here on Saturday supervising the distribution of the pre-mix on the county road.

In the absence of Mrs. Orr, who is on a vacation, Mrs. Louis Enzler is driving the stage between Cool and Placerville.

MISSOURI FLAT NEWS NOTES

Mr. and Mrs. Smith, of Folsom, were visitors at the E. Boles home Tuesday.

Wm. Gowdy was home Sunday to spend the day with his folks.

We are glad to hear that Mrs. W. Stone, who has been in the Placerville Sanatorium, is much better at the present time.

Mrs. Frances Speegle has as her house guest, Mrs. L. Tawney of Fresno, who will be here until the county fair is over.

J. O. Martin and family have moved from Diamond Springs onto the Bachman ranch.

Mrs. Frank Rea is in Stanford Lane Hospital having her eyes operated on. We hope her eyes will be alright again.

Mr. and Mrs. Pete Blackrich and daughter Jerry Ella of Norden, near Donner Summit, were visitors at the Dunn and Headington homes Sunday.

Ivan Davis is building a two-car garage at his home in Missouri Flat.

Callers at the Davis home Tuesday were Mrs. Wm. Dunn, and her granddaughter, Noreen Henneberry, who lives at San Francisco.

A. Speegle, who is in the home guards, went to Sacramento Monday with some of the other men to be in the Legion parade.

We are indeed sorry to hear of Jim Darrington's accident, but hear

he is much better and will be home this week.

Mr. and Mrs. Siedel of El Dorado were callers at the Roy Headington home recently.

Mr. and Mrs. Joe Goodgion of Los Angeles who were recently married visited with Mrs. Goodgion's father, Wm. Scarbrough recently.

Mr. and Mrs. R. Engstrom were in Sacramento last Saturday.

FIVE MILE TERRACE NOTES

Pear picking stated Monday morning at the Earl Fruit Company ranch here. Crops in this area are reported to be excellent.

Mr. and Mrs. Charles Hennings and family were down from Camino over the weekend visiting Mrs. Hennings' mother, Mrs. Will Martin, in Camino, and looking over their property here.

Among the Terrace residents attended the USO benefit dance at Camino Saturday night were Mr. and Mrs. Lou Baumgarten, Si Hennes and Evon Stennett.

Bob Williams was home from Pino Grande for the weekend.

Mr. and Mrs. Roy Blakeley and three daughters of Placerville visited the MacFarlands on Sunday.

Mr. and Mrs. Henry Piaggi of San Francisco who own four lots at the eastern end of the Terrace are vacationing here.

Mrs. John Williamson and Mrs. Carl Tidd of Springvale visited Mrs. Clarence Tidd on Wednesday.

Mr. and Mrs. Emil Dahl of Waadland dropped in to visit the R. A. Barnes family on Monday as they were returning from a visit to their summer home at Lake Tahoe.

Al Huot and Mrs. Lena Vanyle were in Sacramento on Saturday.

Mr. and Mrs. Will Lumley were called to Oakland early Saturday by the illness of Mr. Lumley's father. Although he had suffered a serious attack earlier in the week his condition was improved and the Lumleys were able to return home Sunday evening.

Mr. and Mrs. Lynn Balcom of Stockton are spending a two-weeks vacation at their home here which was leased for a time to the Walter Parkhursts. On Saturday and Sunday they had as their guests, Dale Balcom and daughter, Beverly, of San Francisco and Mrs. Dale Balcom's three brothers and sister of Stockton.

Mr. and Mrs. Joe Miller were in the Legion convention and met Mr. and Mrs. Earl Chessmore who were coming up from Bakersfield for the event. The Chessmores plan to spend their vacation in the county.

Mrs. Walter Leavitt's mother and sister, Mrs. P. S. Adams and Mrs. Jessie Hawks of Fair Oaks visited here on Friday.

Mr. and Mrs. Merle Byers of Camino spent Sunday evening with the R. A. Barnes.

Mrs. Emily MacFarland and son Bruce visited at the Shepard ranch Wednesday evening with Dr. and Mrs. Lloyd Brauer of Los Angeles.

Miss Anna Mae Snook, of Stockton, is visiting Mr. and Mrs. Ray Ellis. Miss Snook, a classmate of Mrs. Ellis at the College of the Pacific, is a teacher in the El Dorado School, at Stockton.

300 Bombers In Raid On Nazis

(Continued from Page One)

est possible war aid and arranging for a British-American mission to Moscow to work out details of long-range assistance was expected shortly.

4—Effective opposition by the United States and Britain against new Japanese moves in the Far East to aid the axis war against Russia was forecast. Tokyo circles charged that the Roosevelt-Churchill plans were designed to "weaken" Japan and split her off from her axis partners. The biggest convoy of the war landed more British forces in Malaya to guard Singapore.

5—With President Roosevelt due to land in New England shortly, Britain's Lord Beaverbrook conferred at Washington in his campaign for "more of everything" to aid Britain's war effort and the administration was expected to seek a new \$6,000,000,000 lend-lease appropriation to aid in speeding production.

6—The presence of high military and naval officials on the warships on which the two Democratic leaders conferred at sea gave the meeting the tone of staff talks such as are carried out by fully allied nations, thus by implication putting the United States and Britain in a closer entente.

Vanderbilt Divorce Suit May Be Transferred

NEW YORK, (UP)—Reports circulated here today that Mrs. Alfred Gwynne Vanderbilt would transfer her divorce action against her wealthy sportsman husband to a state where grounds other than adultery are acceptable.

Mrs. Vanderbilt, the former Manuela Hudson of Monterey, Calif., started her action in New York supreme court last week, naming two young women as co-respondents. It was reported that the 28-year-old Mrs. Vanderbilt had asked a lump sum settlement so large that her husband, heir to \$20,000,000, refused to consider it. He offered her instead, it was understood, a substantial annuity if she would obtain her divorce elsewhere.

Miss Anna Mae Snook, of Stockton, is visiting Mr. and Mrs. Ray Ellis. Miss Snook, a classmate of Mrs. Ellis at the College of the Pacific, is a teacher in the El Dorado School, at Stockton.

22 Killed In Crash Of British Ferry Plane

LONDON, (UP)—Twelve Americans were killed yesterday in the crash of an Atlantic ferry plane taking off for the United States, the second disaster of its kind in six days. Twenty-two persons, including Arthur Purvis, 51, head of the British purchasing commission to the United States, died in the latest crack-up.

Last Friday another Atlantic plane crash killed 22 ferry pilots and crew members, including seven Americans.

Authorities admitted today that they were investigating the possibility of sabotage.

BLOODY BATTLE OF SMOLENSK COST NAZIS HEAVILY IN LIVES LOST

MOSCOW, (UP)—The bitterly-contested battle of Smolensk, which saw the city change hands repeatedly in 30 days of bloody house-to-house, street-by-street fighting, was reported today to have cost the Germans "hundreds of thousands" of killed and wounded.

The first detailed Russian description of the battle for Smolensk, on the road to Moscow 235 miles southeast of the capital, was contained in an official dispatch from Gen. A. Yeremenko.

The Germans concentrated picked divisions in the Smolensk-Nevel sector, Yeremenko reported, adding, "now many of these divisions cease to exist or have lost more than half of their effectiveness and become remnants."

German corpses, he said, "cover every foot of land" along the approaches to Smolensk. "Fierce

fighting developed in every street and house and the fascists generally splashed their blood along every yard of advance."

Church and Sunday School

CHRISTIAN SCIENCE SERVICE

First Church of Christ, Scientist, Placerville, Bedford Avenue at Union Street.
 Services, 11 a. m. Sunday School 9:30 a. m. Wednesday evening. Testimonial Meeting 8 p. m.
 The reading room at the church building is open Tuesday and Friday from 2 o'clock until 4 o'clock.

In all Christian Science churches, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., a Lesson-Sermon will be read Sunday, August 17, on the subject "Soul".

The Golden Text will be: "Bless the Lord O my soul: and all that is within me bless his holy name." (Ps. 103: 1). Bible selections will include the following passages from Matthew 16: 24, 26: "Then said Jesus unto his disciples, If any man will come after me, let him deny himself, and take up his cross, and follow me. For what is a man profited, if he shall gain the whole world, and lose his own soul? or what shall a man give in exchange for his soul?"

A passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included, which reads as follows: "Question.—hat are the demands of the Science of Soul? Answer.—The first demand of this Science is, 'Thou shalt have no other gods before me.' This me is Spirit. Therefore the command means this: Thou shalt have no intelligence, no life, no substance, no truth, no love, but that which is spiritual." (p. 467).

Everybody welcome. No collections.

FULL GOSPEL ASSEMBLY

9 Coloma Street

E. L. LASSEGUES, Pastor

Miss Ruth Couchman, for twelve years a missionary to Peru, South America, will be the special speaker at the Full Gospel Church, 9 Coloma Street, next Sunday morning and evening. Miss Couchman, though practically midged proportion physically, has a personality set on fire for God, and is a very effective speaker. She expects to return soon to the mission field.

Regular services of the church are held on Tuesday and Friday nights and Sunday school at 10 a. m. The public is cordially invited to all services.

LUTHERAN CHURCH

Divine services will be held Sunday afternoon at 3 o'clock in Odd Fellows Hall on Main Street, Placerville. Rev. Carl Fickenscher, pastor of Trinity Lutheran Church, at Sacramento, will conduct the service. He will take for his sermon: God's Warning Against Unbelief. Oscar Mueller, Sacramento church organist, will accompany the congregational singing.

A Sunday school hour will also take place beginning at 2 p. m. The public is cordially invited to attend.

BEHIND THE SCENES IN BUSINESS

(Continued from Page One)

income." The winners are Miss Louise Mullen of Stafford, N. Y., Wayne Leimbach of Vermillion, O., and Emmerson Higgard of North Hadley, Mass. In competing for the scholarship scores of farm youngsters studied the various methods of distribution by which produce is moved from farm to market—the old-line system by which produce reaches the consumer only after passing through the hands of numerous trade middlemen, and the modern streamlined mass-distribution system—pioneered by chain stores—which rushes vegetables to the housewife with a minimum of stops and waste along the way.

THINGS TO WATCH FOR—More maroon automobiles—latest survey by Pontiac shows the dark red now ahead of the standard black in popularity; and with gray and blue in third and fourth places. . . A kit called "Sew Your Own," containing all materials needed for making your own gloves. . . A radically new phonograph record-changer by RCA Victor, which will play both sides of a record without turning it over, can run through a whole two-hour concert without any human-hand help whatever, plays the symphonic sets in old-style "one-side-and-then-the-other" as "automatically" as it does the mechanical sequence sets. . . New in the toy line will be magnetically-operated ones by General Electric; magnets in their bases enable them to be put through magic-like antics.

LIVING COSTS UP 5 PCT.

(Continued from Page One)

Francisco-Oakland area.

With respect to wages in manufacturing industries, the bulletin also points out that between June, 1940 and June 1941 there has been an increase of 22 per cent, according to the monthly survey of the State Division of Labor Statistics and Law Enforcement. From May to June of this year wages in the manufacturing industries increased 7.9 per cent in San Francisco County; 15.4 per cent in Alameda County; 8.9 per cent in Los Angeles County; and 10.7 per cent for the state. Average increase for the United States as a whole for the period was 9.1 per cent. Thus, the bulletin points out, the figures for May show that the hourly earnings in California manufacturing industries are 14.3 per cent higher than the average for the United States as a whole.

"Since these increases in wage rates and earnings have been considerably greater than relative increases in the cost of living," the bulletin says, "it is obvious that the 'real' wages and purchasing power of workmen in the manufacturing industries have been materially increased."

MULTIPLE AUTO CRASH HAS SEQUEL IN COURT ACTION

Suit for in excess of \$41,000 damages was on file in Superior Court Friday in behalf of Joseph Pedone and others and against A. W. Bowman, the Universal Film Exchange, and others.

The action is based on the circumstances of the multiple auto accident on U. S. Route 50 about twenty-eight and one-half miles east of Placerville on December 7, last.

Charging negligence on the part of Bowman, who was employed by the film exchange, the complaint asks for damages in the amount of \$25,000 for Gertrude Pedone; \$275 for Fred Pedone; and \$16,000 for Joseph Pedone, for injuries suffered in the crash.

CALIFORNIA FARM PARADE

By United Press

The question of farm labor has been bothering more and more farmers recently. But maybe farmers will receive some consolation out of the fact that the threatened shortage of farm labor also has been worrying somebody else. We're referring to Brigadier-General L. B. Hershey, the selective service director.

He says that one of his most perplexing problems is centered around the farm labor question—and how to draft a man sized army without interfering with food production. He has emphasized time and again that farm youths should not be drafted.

Hershey doubts that there's sufficient skilled farm labor to meet the increasing demands for the food-for-defense program. In a talk scheduled for delivery in Des Moines Hershey explains some of the reasons why he refers to farm work as skilled labor.

He points out that a farmer has to be an expert in preparing the soil, planting the seed, and harvesting the crop. The farmer has to be a mechanic to handle tractors, and an animal trainer to handle

the horses. He has to be somewhat of a nutrition expert to feed his livestock. And it never hurts if the farmer's a little psychic about forecasting the weather.

Hershey says that under these circumstances, you can hardly expect a city boy to become an expert farm hand immediately. And he adds that during the present emergency, there's not enough time to train many new men to be efficient farmers.

All of this leads Hershey to but one conclusion—draft boards should be most cautious in calling farm workers for military training.

While there's plenty of demand for farm laborers, there's also plenty of demand for the farms themselves.

For government agencies report a considerably stronger market for farm real estate.

The federal farm mortgage corporation and the federal land banks report ever-increasing sales. This particularly true in the farm credit districts of Baltimore, Louisville, St. Paul, Omaha, Wichita, Berkeley and Spokane.

Today's Sport Parade

NEW YORK, (UP)—That mobile field hospital known as the St. Louis Cardinals may not win the National League pennant, but it looks like the boys are willing to kill themselves trying.

The days of the gas house gang are back.

Once more the Cardinals are playing hell-for-leather baseball, ramming into fences while chasing fly balls, sliding like wild men, blocking the plate and sneering at runners with high riding spikes. They're rough and tough and anybody who gets in their way had better be ready to take it.

The records of Cardinal injuries this season read like those of the accident ward of a hospital:

May 18—Walter Cooper dislocated shoulder blocking the plate.

May 25—Creepy Crespi fractured finger diving for grounder.

May 27—Johnny Mize, out with a split finger, insisted on going to bat as a pinch hitter in the ninth with bases filled. Slammed out a single and won the game.

June 11—Jimmy Brown fractured finger making long slide into third base.

June 23—Mort Cooper operated on for bone growth on his pitching elbow. Everybody figured he was out for the season, but he's back and winning.

July 19—Terry Moore injured his shoulder diving for a fly.

August 4—Crespi (that man's back again) hit in the face by a batted ball.

August 10—Enos Slaughter broke left clavicle when he crashed into the wall trying to make a tough catch.

Down in St. Petersburg, Fla., where the Cardinals did their spring training, there was nothing to indicate in March that St. Louis was going to have that kind of ball club. Everything was businesslike, including the doling out of Vitamin B-1 tablets, which owner Sam Breadon thinks are partly responsible for the success of the team. Manager Southworth roamed the field with a clip-board loaded with data about the young players—the boys who are burning up the league now. It looked more like a factory than a spring training camp.

But after the Cardinals made their first swing around the circuit, they began to see the faint, far-off green color of world series money. Inasmuch as the Cardinal management never has been known to toss money carelessly to the hired hands, the boys figured they could use some of that world series lettuce.

All hell then began breaking

loose around the National League. The Cardinals broke their bones and smashed their heads joyously in giving everything the old college try. No player would think of staying out of a game with less than acute appendicitis complicated by gout and a sprained ankle.

It's quite a show the new gas house gang is putting on. Get a load of it if it comes your way.

ARSON AND BURGLARY SUSPECTS ADMIT THEIR GUILT

Sentences will be passed Monday morning in Superior Court in the case of Charles Edward McKay, charged with arson; and George B. Walrath, charged with burglary.

Both entered guilty pleas Friday morning at separate arraignments in which each appeared without counsel. Each applied for probation.

Walrath admitted burglarizing a cabin near Barton's Cabin. The crime was found to be a burglary in the second degree.

McKay pleaded guilty to a charge of setting fires on or about July 1 on the lands of E. C. Harrington. Worley McMurray, who escaped from custody July 12, is also wanted on the arson charge.

George Volz returned Thursday evening from Berkeley, where he had been in attendance at a conference of secretaries of Agricultural Conservation Associations.

Ella Adams has brought suit in Superior Court against Charles Burns and others, seeking to quiet title to lands lying in Township 8 north, range 10 east in the area south and west of El Dorado.

State Senator H. E. Dillinger was at Sacramento Friday attending a meeting of the interim committee on unemployment.

John Keusseff, of the forest headquarters staff, was at San Francisco on Friday on business at the regional office.

SAVE 20% to 35% IN FUEL COSTS WITH A QUAKER Burnoil HEATER

Yes, you can save 20% to 35% and more in fuel costs with a new Quaker Burnoil Heater. This is made possible by Syncro-Matic Mechanical Draft, offered only by Quaker. And not only do you save in fuel costs—but you are assured of better operation... for this heater provides perfect combustion without relying on the chimney. See an actual demonstration today!

the only heater with Syncro-Matic MECHANICAL DRAFT
